#### BOODLING IN NEW HAMPSHIRE.

Gov. Sawyen has done an honest and brave act in vetoing the Railroad Bill over which two rich corporations have been fighting for months at the capital of the Granite State.

The contest was a battle of money-bags. Skilled lobbyists were employed, after the manner of Huntington. Several members of the Legislature testify to having been of. fered sums ranging from \$1,000 to \$5,000 for their votes. The Governor charitably observes that no proof has been found that any of the tempted sold themselves, but this concession to State pride and party necessities will hardly deceive anybody.

The incident is instructive as showing how the corporations corrupt politics and seek to pervert government to their ends. The sending of a few bribers to the penitentiary would do more to check the evil than will a dozen

#### A REARCH FOR A WIPE.

RUDOLPH KOCHER, of Keyport, N. J., who is canvassing the Castle Garden arrivals for a wife, is a degree too exacting in his requirements. After enumerating various other essentials, he insists that the future partner of his bliss shall have no male cousins, because he does not wish to have them visit

This prejudice against male cousins is unfortunate, because it may rule out many otherwise eligible brides. It may happen that the very paragon of wives is handicapped in this way. Yet there is, perhaps, an implied compliment in Mr. Kochen's condition to the effect that one may have to search a long way to discover the faults of some of the fair sex.

But we trust Farmer Kochen may be prevailed upon to modify his restriction. At the same time it is just as well for male consins not to be too consinly.

ably begin to-morrow their negotiations for harmony and unity on a County and Judiciary ticket. The Tammany Hall Committee was appointed some days ago and is ready for business. The County Democracy's County Convention will meet this evening in the large hall of Cooper

Institute, and, after se lecting a Conference Committee, will adjourn for a few days. The two conference committees will simmer down to sub-committees which will be controlled by a few leaders. It is not at all improbable that these leaders have already prepared a slate that will be accepted by the sub-committees, recommended by the committees and then ratified by the two conventions.

All sorts of rumors are flying around local political resorts regarding the make-up of the Tammany Hall and County Democracy union ticket. Among County Democracy men it is openly boasted that Assistant District-Attorney James Fitzgerald is to be the nominee for District-Attorney and that District-Attorney Randolph B. Martine will be nominated for Judge of the Court of Ses sions. It was said that the fiat had been is sued from the New Amsterdam Club and that

definite had been agreed upon. They say,
nevertheless, that Police Justice Power has

The Tammany Hall leaders have conceded The Tammany Hall leaders have conceded the nominations for District-Attorney and Judge of the Court of Sessions to the County Democracy, and at the conferences will probably not lay claim to these two offices. They would prefer the County Democracy to nominate Mr. Nicoll for District-Attorney and Mr. Martine for Judge, but do not wish to place Tammany Hall in the position of dictating to the County Democracy. Most of the Tammany Hall District leaders wish to see a ticket nominated that can be elected. They have several favorite can-didates for District-Attorney whom they would rather see elected than Mr. Nicoll, but they know that there is a popular feeling for Mr. Nicoll and that his nomination would help candidates for Senator, Assembly and Civil Justices in close districts. All Tammany Hall men who are slated for nomination are in favor of Mr. Nicoll. They know that his nomination for District-Attor-ncy would help them. Some of the Tam-many Hall leaders are disposed to find fault at the conference meetings if Mr. Nicoll's name is not mentioned by the County De-mocracy representatives. The Republicans are still thinking of nominating Messrs. Nicoll and Martine on their ticket. It is said that ex-Senator Thomas C. Platt and the members of the State Commit-ter are in favor of these nominations Mr. Cornelius N. Bliss, Chairman of the State committee, thinks that the nomination of Committee, thinks that the nomination of Martine and Nicoll by the County Convention would add 10,000 votes to the Republican State ticket. The Republican Convention has adjourned for a week to consider the subject. When it reassembles, if will have an opportunity to profit by the mistakes of the Democracy, and will also have a better chance to judge public sentiment after the union Democratic ticket is in the field.

THE EVENING WORLD has swung right into prominence and a big circulation at one and the same time-the natural result of knowing how to do it. One is disposed to ask: What next? We must wait for that. But one thing is certain, the next thing will have to be very excellent to go ahead of what we have in the present EVENING WORLD.

The king of dailies is the deserved title of the New York WORLD, and a one cent evening edition. THE EVENING WORLD, launched Monday evening proved an immediate success. In last Sunday edition of THE WORLD appears a ten-column ac count of a young woman reporter's successful impersonation of an insane woman, her commitment to Blackwell's Island in the insane ward from where she was finally taken by "friends after a ten days' stay; and the way she exposes the abuses of that special institution for the insans and incompetent examining physicians has made a tremendous sensation in New York and elsewhere

And it's a marvel for enterprise, as well as a thing of beauty. May it prove a joy forever. Several young girls wore felt walking hats tipped with white. These are non-commit-tal. Girls wear them until the winter fashions are more decided.

peep chentile bonnets, of only the one color, were seen at the theatres last night. In fact, the fashionable colors are so vivid that they could hardly fail to be seen.

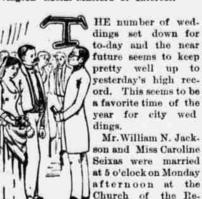

A little lady who sat four rows from the orchestra at the Bijou Opera-House last night wore a bonnet of brown feathers, trimmed with loops of ribbons of the same color, and fastened by a feather buckle. Two rows behind the lady with the brown feathers at the Bijou was a pretty golden-haired girl in a black felt bonnet trimmed with dainty half-meons of old-gold plush and supplemented by old-gold feathers.

Across the street from the Bijou at Wallack's, in one of the front orchestra seats, sat a lady wearing a very elaborate bonnet, cun-ningly contrived of folds of amber velvet, drawn through buckles of phosphorescent beads, and apparently guarded by a large bird of paradise,
